

Bollard Covers

For improved visibility, safety, & quality appearance

Bollardgard bollard covers (bumper post sleeves) for protection of facility fixtures, machinery and vehicles.

Applications

Bollardgard post covers install quickly over all bollard sizes up to 11.625" diameter, for improved visibility, safety, and quality appearance. **Available in many stock colors** including yellow, red, white, blue, gray, black, orange and more. 3M reflective tapes are stocked in red, white, yellow, orange, black, and blue. Bollardgard will compliment any retail, municipal or industrial application. 1/8" thick HDPE covers can be **customized with corporate logos**, safety warnings, or accessories.

Features

Bollardgard is made from high quality, durable materials, with UV inhibitors for long service life and lasting color. Bollardgard is easily installed in minutes for effective protection and **reduced maintenance**.

Installation

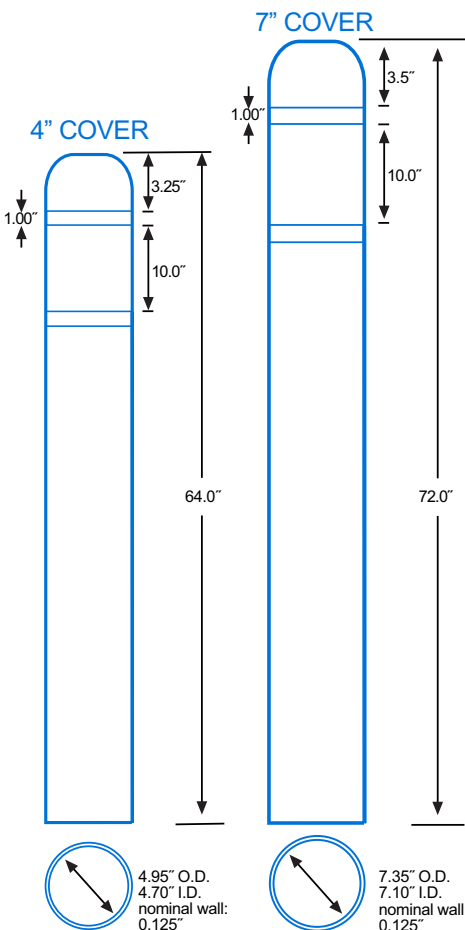

Our patented **Gripper Tabs** installation is the fastest and most secure method in the industry. No charge for custom cut to length.

Benefits

Why scrape and paint steel bollards when you can eliminate maintenance with Bollardgard? Bollardgard keeps your facility and vehicles in great shape.

5 YEAR GUARANTEE
AGAINST CRACKING/FADING
