SONOTUBE®
ROUND
concrete forms

STAND STRONG

Applications

- **Outdoor sign, light pole and fence-post bases**
- **Footings**
- **Stub piers for elevated ramps**
- **Columns for residential and commercial buildings and other structures**
- **Flagstones and round steps**
- **Theatrical and movie props**
- **Super-sized shipping tubes**

A heritage of trust

Contractors around the world have relied on the Sonotube® brand for over 50 years. More than just paper tubes, Sonotube concrete forms stand strong as the most economical way to create round columns for buildings, entranceways, structural columns, light posts and other commercial and residential structures.

Rain resistance

Sonoco engineers applied a century of leadership in design, technology and manufacturing to create a high-strength, rain-resistant paper for Sonotube forms. The new paper's attributes allowed Sonoco to reduce the weight of the forms, making them easier to handle, set, strip and discard. And now with RainGuard™ paper technology,* Sonotube forms stand strong even in wet weather. Set today and pour tomorrow.

Industry-leading technology and value

The superior strength-to-weight properties of Sonotube forms prevent blowouts and may eliminate the need to use a crane during setup. Contractors around the world know Sonotube concrete forms stand strong in their superior technology and value.

** Patent pending*
